SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

CDPH Statewide Travel Advisory

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

01/19/22 - 01/25/22

Wednesday - Tuesday

- Areas of locally dense fog will be seen during the overnight and morning hours across the Central Valley and far northern California mountain valleys through late week
- Dry and mild weather is expected statewide Wednesday through early next week
- Locally gusty offshore winds are expected at times across portions of the Central Valley, Sierra, and southern California mountains and foothills Thursday through Sunday
 - The strongest winds currently expected Friday and Saturday across the Sierra Crest, then Saturday across southern California

CALIFORNIA WEATHER IMPACTS

01/19/22 - 01/25/22

<u>Hazards / Day</u>	WED	THU	FRI	SAT	SUN	MON	TUE
Non-Thunderstorm Damaging Winds		Southern	Inland/ Southern	Inaland/ Southern	Southern		
Snow							
Coastal Flooding							
River Flooding							
Thunderstorms (Wind / Hail / Tornadoes)							
Fire Weather (Low Humidity / Wind / Dry Thunderstorms)							
Heat Risk							
Heavy Rain/Flash Flooding/ Debris Flow							
Cold							

No Impacts

Minimal Impacts

Moderate Impacts

Severe Impacts

PRECIPITATION FORECAST

01/19/22 - 01/21/22

**No significant precipitation is
expected through Friday**

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

WEATHER OUTLOOK

01/24/22 - 02/01/22

6-10 Day Outlook (January 24 – January 28)

Temperatures

- Above normal temperatures are favored to continue across northern California, with near normal temperatures favored for southern California

Precipitation

- Below normal precipitation is favored to continue statewide

8-14 Day Outlook (January 26 – February 1)

Temperatures

- Above normal temperatures are favored across southern California, with near normal temperatures favored for northern California

Precipitation

- Below normal precipitation is slightly favored for the majority of the state, with the exception of far southern California, where near normal precipitation is favored

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-76138, 01/18/22, 1530 Hours:** The AFRCC contacted Cal OES regarding an ELT sounding in Imperial County at an airport LAT: 32.835 LONG: -115.5733. The airport has been in-active since 2017. The ELT, at one point, was registered to a specific airplane. The FAA confirmed that the tail# associated with that airplane was no longer in service. The airport security searched the airport for this plane but was unsuccessful in locating it. The AFRCC dispatched Civil Air Patrol (CAP) in attempt to locate the device. At 2300 hours CAP arrived and advised that the ELT was now silenced and therefore unable to determine its whereabouts. A search of the area revealed no emergency. **MISSION CLOSED**
- **2022-LAW-76101, 01/15/22, 1523 Hours:** The AFRCC contacted Cal OES regarding a PLB activation in Orange County (33.500000, -117.696667). These coordinates were near San Juan Capistrano, in a neighborhood, but the accuracy involved a (5) mile radius. The device did not have any registry assigned to it, nor past data to help further investigate. Given the location and its proximity to the ocean, the LDO requested AFRCC contact the Coast Guard for advisory purposes; especially given the recent Tsunami event. The LDO also requested an additional ping notice from the AFRCC for triangulation purposes before jurisdictions were notified (Approximately 10 mins). At 1548 hours the AFRCC contacted the LDO and advised that the Coast Guard had received the same ping and had been working it already. They relayed to the AFRCC that they believed it was in a harbor and would assume ownership. **Update: 01/17/22, 0100 Hours, Mission Re-Opened:** The AFRCC contacted CalOES and advised of a new activation approximately 2 miles south in Dana Point, on-land near the harbor. CalOES contacted Orange County Sheriff's Office who dispatched Harbor Patrol. The device was not located and ultimately Civil Air Patrol (CAP) was assigned the mission to locate it. At approximately 1700 hours, LDO was advised that CAP had located the device in a locked box next to a boat in the Harbor and would return in the morning with the owner to silence it. **Update: 01/18/21, 1200 Hours:** The AFRCC advised that device had been located and silenced. No emergency existed. **MISSION CLOSED.**

Cal OES MISSION TASKINGS

Cal OES Missions

- **76079, T63994:** : Due to severe storms the community of Butterfield Ranch (San Diego County) lost normal cellular communications and is isolated without 911 services. AT&T is unable to repair the cell tower in the area. On 01/14/22 AT&T deployed a COLT to support the community. The duration is expected to be until services are restored.
- **#75774:** Deployed 1 kit of Bendex DPH handhelds to support Washington Fire Department due to communication issues related to storm impacts and geographical communications needs. The equipment was readied by CRU Staff and delivered.
- **#75752:** Due to severe winter storms the Town of Washington in Nevada County lost normal landline communications and was isolated without 911 services. Fire Chief through Inland Region ESC requested a COW from Verizon. The TDO coordinated with Verizon ERT and CUEA Representatives for the deployment of a Verizon COW using Satellite backhaul which is now onsite positioned across the street from the Fire Station at 15406 Washington Road. **Update, 01/19/22, 0759 hours:** [Returned last week, per Cal OES IDO.](#)
- **2021-TACCOM-061621 (OCFA Testing):** Sonim Kit HQ3 assigned to OCFA, to test Android phones with ATAK for fire season. ETA Return is 02/21/22. COMC monitoring. Contacted Assignee he will advise on exact date of return for the resource.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
